

CDI Financial Services is a full-service cloud financing company offering various products that help meet budgetary, financial and technology requirements in a hybrid cloud world.

As CDI Financial Services is a privately-owned company, we have the flexibility to be extremely competitive with any deal. We understand that cloud economics are driving financial decision makers to resolve fixed asset requirements involved in running their business, and we offer white glove, high-touch financial options that are custom tailored for each client.

## Introducing CDI Cloud Pay

### Benefits

- On-premise payment that hits your books like an AWS bill
- Not a typical lease
- No liability in taking title of equipment
- Avoid asset depreciation
- Ability to edit payments based on CAPEX cash flow
- Only pay for portion of FMV used over the term
- Can finance SW and ELAs
- Flexibility to choose terms of extension and to extend at end-of-term
- Not a CAPEX or OPEX spend on books: rental agreement = utility
- Ability to rent for three years, and then return or extend rental period in years four plus
- Can hedge bet if moved to cloud and not be left with large CAPEX bill
- Not treated as debt on books
